

History

Our main learning this half term will be around the History of Aviation and different explorers. Some of the explorers we will be looking at are: Amelia Earheart, Christopher Columbus, Tim Peake and the Wright Brothers.

Physical Education

PE will be taught weekly by Mr Tyas, who will focus on a range of outdoor team sports such as Football and Basketball.

Please remember to bring both indoor and outdoor PE kits every day.

Class 7 will be having swimming lessons on Wednesdays until the 25th March.

Class 6 & 7

Spring Term Plan Mission Statement

Roughwood Primary School
'Where a love of learning grows'

Dear Parents/ Carers,

During the Spring Term, we are going to be 'Surviving' by looking at different explorers and ways to survive different situations. We will be focusing on the book, 'The Explorer', by Katherine Rundell.

We have planned our residential to 'Ilam Hall' and we are considering booking 'Pop's Outdoor Adventure for a survival workshop; also we will hopefully be going to a aircraft museum to link with our History learning.

Please support your child by reading 5 times a week at home and recording this in home school diary, and encouraging them to attend the home work club at lunchtimes if they don't have access to a computer.

Yours sincerely

Mrs. Raison and Miss. Woodward (Class 7 and Class 6 teachers)
Mr N Williams (Head of school)
Mrs J K Fearnley (Exec. Head Teacher)

Literacy

This term, we are going to be fully immersed in 'The Explorer' as our class book. We will use lots of drama and imagination to write a range of descriptions, discussions on survival, explanations of how the Digestive System works and also biographies and autobiographies of the famous explorers through time.

Numeracy

The four operations and new written strategies will be introduced. We will also look at place value, shape and measure.

Science

Two areas of the science curriculum will be covered over the term, these are: Animals including Humans and Living things and Habitats.

ICT/ Computing

We would like to use ICT in a range of ways, exploring programming and control using programmes such as 'Scratch' and 'Blockly maze.' We will then use ICT to develop children's internet safety and their use of Google Drive as a tool for sharing learning.

Design Technology/ Art

We will be focusing our design technology around STEM learning this term, designing our own aeroplane. We will also be looking at art work from Claude Monet, Degas and Renoir as well as constructing some 3D models including clay sculpture.

RE

Our studies in Religious Education will be based around the Christian and Hindu faiths this term.

Music

Ms Daws will be returning to teach trumpets to the Year 4 children in classes 6 & 7 on a Tuesday afternoon.
